Subject: News: 3,000 barrels of brine spills on Fort Berthold reservation

http://bismarcktribune.com/bakken/barrels-of-brine-spills-on-fort-berthold-reservation/article_e44f74fe-2c91-11e4-8281-001a4bcf887a.html

WILLISTON, N.D. — A pipeline near the town of Mandaree on North Dakota's Fort Berthold Indian Reservation leaked 3,000 barrels of brine, state agencies confirmed Monday in the second such incident at the reservation by the same company in as many months.

The North Dakota Industrial Commission and the state Department of Health said the pipeline is operated by Arrow Water LLC, a subsidiary of Houston-based Crestwood Midstream Partners LP. The leak was discovered late Friday.

....

In early July, a pipeline operated by another Crestwood subsidiary leaked 1 million gallons, or 24,000 barrels, into the badlands near Mandaree. That incident was one of the largest oil field spills in state history. A barrel equals 42 gallons.
